

Office Workstations

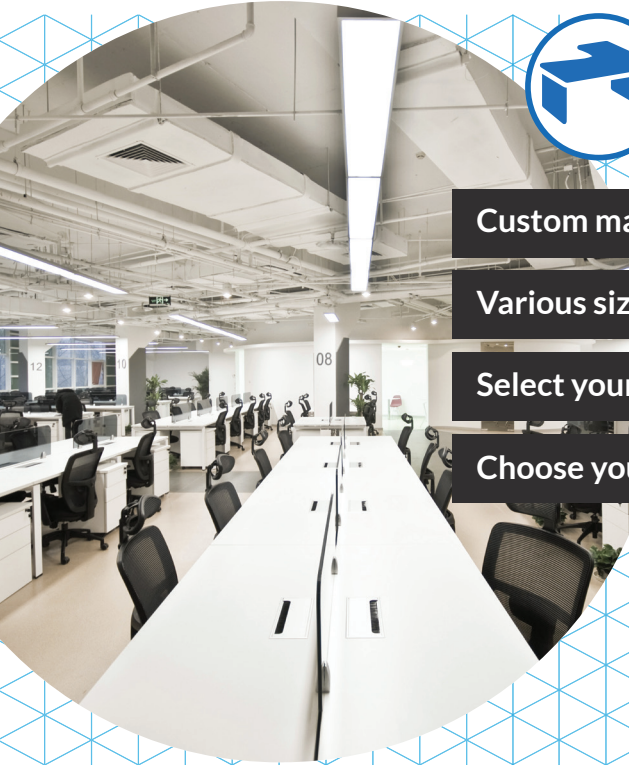

Custom made office workstations to suit your needs

Various size available to fit the right number of people

Select your material to match your office: wood or steel

Choose your colours of frame and top from 120 colour samples

Select a shape and colour of top, a frame and dimensions and we will supply the exact workstation that you need. Whether you require a metal or wooden base we will make sure that it features a simple and elegant design while offering stableness with minimal understructure. Our objective is to optimise user capacity and utilization of space while preserving a high level of comfort.

We will be there to advise you in the best available solution for your specific application. All of our workstation tops come with a thickness ranging from 18mm up to 25mm ensuring solidity and stability. All of our workstations can be combined with our partition screens to offer the perfect office solution.
