Select from a range of 6 different materials

Drawings and measurements provided by our office fitout team

McLernons offer custom office partition solutions designed by our office fitout team to meet your requirements. We have several types of partition screens including: desk mounted screens that ensure privacy while preserving free communication between workstations.

Ducted partition screens come in a large range of finishes and colours, with built-in cable management for practicality and optional acrylic top for additional style. Non ducted screen either wave or square shaped, that can be free standing or connected using a unique hinge system where the angle can be set from 90 to 270 degrees without requiring feet.
